their daughter, Mary Vera, was united in marriage to William A. Miller, the Rev. Roppel officiating.

The house was very appropriately decorated with roses and red, white and blue bunting, the former in the shape of an arch under which the ceremony was performed.

The bride, wearing a fawn crepe de chene dress and carrying a beautiful bouquet of roses, entered on the arm of her father, to the strains of Lohengrin's Wedding March, played by Miss Emma Hehn. The little gifts. daughter of Mr. and Mrs. L. Hehn, Dorothy, acted as flower girl. Following the ceremony a very dainty repast was served, under the direction of Mrs. Cunningham, assisted by the Misses A. Mueller and L. Clemens. The bridal table, in the centre of which was placed the wedding cake, was very artistically decorated with satin ribbons and sweet peas.

The gifts were numerous and at-

tracted much attention.

The happy couple left by car for Banff and Lake Louise, where they will spend a short honeymoon. The bride wore a gabardine ensemble suit trimmed with fur.

The bride and groom have both lived in Didsbury for many years and they leave with the best wishes of the whole district, for Tenant, Sask., where Mr. Miller will take over his first charge in the ministry.

Among those present were: Rev. and Mrs. Roppel, Mr. and Mrs. J. Hehn, Mr. and Mrs. H. M. Reiber, Mr. and Mrs. J. E. Liesemer, Mr. and Mrs. E. E. Liesemer, Mr. and Mrs. C. R. Liesemer, Mr. and Mrs. H. E. Liesemer, Carstairs, Mr. and Mrs. J. V. Berscht, Mr. and Mrs. S. E. Reibar, Olds. Mrs. Mr. and Mrs. S. E. Reibar, Olds. Mrs. Mr. and Mrs. S. E. Reiber, Olds, Mrs. M. Diebel, Calgary, Mrs. A. Mueller, the Misses R. Liesemer, Carstairs, F. Reiber, D. Liesemer, W. Liesemer, F. Diebel, Calgary, and Messrs. W. Keith, C. E. Reiber, A. J. Liesemer, G. E. Liesemer, A. Reiber, L. Liesemer, R. Rorscht, O. Hebb, H. G. Paiberger, and M. Reiberger, C. Re Berscht, O. Hehn, H. G. Reiber and

McEWEN-ARMSTRONG

The farm residence of Mr. and Mrs. David Armstrong was the scene of a very pretty wedding on Friday, July 3rd, when their second eldest united in marriage to Mr. David
Joseph McEwen, youngest son of Mr.
and Mrs. Robt. McEwen. The wedding ceremony was performed by Rev.
T. Hormuth at 12.30 noon. The bride
was given away by her father as Miss. daughter, Olive Magdelena, was was given away by her father, as Miss particularly requested, therefore, that those having any in their wedding march.

The bride was charmingly attired in a gown of electric blue canton crepe and carried a bunch of white carnations. The bride was attended by Miss Louise McEwen, who was attired in a tan crepe de chene dress and carried a bouquet of pink carnations. The bridegroom was supported by the bride's brother, Mr. Raymond Armstrong. After the ceremony the guests sat down to a sumptuous din-

The bride and bridegroom were the recipients of many beautiful and useful gifts. The young couple left on the evening train south and on their return from their honeymoon will reside on their farm in the Waterloo district.

Amongst the guests present were: Mr. and Mrs. James Armstrong, Calgary, Mr. and Mrs. William Armstrong, Beddington, Mr. and Mrs. L. J. Deihl and family, Invermere, B.C., Mr. and Mrs. Robt. McEwen, Elkton, Miss Mildred McEwen, Didsbury, Miss Louise McEwen, Didsbury, Miss L. Lagault, Didsbury, Miss Irene Merk-ley, Saskatoon, Miss Grace Harlen, Saskatoon, Miss Myrtle Carry, Carstairs, Mr. John Carry, Carstairs.

MACK-LIND

A very pretty wedding took place at the home of the bride's parents, on Tuesday, June 30th, when Miss Lillian Kathryn Lind, only daughter of Mr. and Mrs. Oscar Lind of Nanton, became the scene of a very pretty wedding on Wednesday, July 1st, when their daughter, Mary Vera, was united in marriage to William A Miller, the and was performed by Rev. Mr. O. R. Lavers of Nanton. The wedding march being played by Miss Mildred Peterson also of Nanton.

The bride was becomingly attired in a gown of white crepe-de-chene with a veil to match. She carried a lovely bouguet of Ophelia Roses.

Following the ceremony a recep-tion and buffet luncheon was served. The bride and groom were the recipients of many beautiful and useful

The young couple left in the even-ing by car, amid showers of confetti and rice, for Calgary and Vancouver where they will spend their honeymoon previous to returning to their residence in Crossfield.

Among the guests who attended the wedding at Nanton from Didsbury were the following: Mr. and Mrs. Chris Mack, mother and father of the groom, Mrs. Sydney Wright, Mrs. Edward Berscht, Mrs. Chas. Frank-lin and son Raymond, Miss Lily Mack and Mr. Wilfred Klein.

Mr. and Mrs. W. Clyde Smith, Mr. and Mrs. L. C. Webber and Mrs. Leyne and children, all of Edmonton, spent the week end at the home of Mr. and Mrs. E. G. Reitzel in town. Jack and Dorothy Leyne of Edmonton are spending their vacation at the home of their grandparents, Mr. and Mrs. E. G. Reitzel.

Sign Contracts.

Considerable activity has been displayed in the last week or two in connection with the Alberta Pool, and an increased interest is noticeable throughout the district. Meetings have been held at a

meetings have been held at a good many points recently urging all farmers to get their contracts signed as early as possible. A. B. Claypool, M.L.A., accompanied by N. S. Clark, and supported by other local residents, have covered between them a large extent of Country, addressing meetings at Three Hills, Acme, Irricana, Sunnyridge, Bycre, Zella, Cockrane, Rugby, Crossfield, and intervening points. They report considerable enthusiasm everywhere and the farmers keenly alive to the importtance of the various pools.

possession append their signature and post them without further delay. All contracts are to be in by August 1st.

To Hold-Up The Farmers

With weather and other conditions at the end of June-when this article is written--favorable to the production of a bumper crop in all three prairie provinces this year, a report comes of a movement under way having for its object the holding-up of the farmer in order to extort from him a high rate of wage for harvest hands and farm workers in general. It remains for the farmers themselves to nip the scheme in the bud, and for them to be forewarned is to be forearmed.

An effort is now being made by organizers of the LW.W. to organize a farm-workers' branch of that body of international agitators and trouble makers in Winnipeg, which is the centre of distribution of farm workers throughout Western Canada, and one of the international oragnizers, who, by the way, has spent more than one term in United States prisons, is now in Winnipeg assisting the local organizers of the L.W.W.

On a previous occasion, two or three years ago, an attempt was made to organize an I.W.W. farm-workers body among the unemployed in Winnipeg at a time when efforts were being made by the civic authorities to find employment for these men on farms, thus benefiting them, helping the farmers, and relieving the economic situation in the city. At that time one of the I.W.W. organizers was reported as using the following language in a speech delivered in the Labor Temple:

"The only way to get even with the farmer for paying so small a wage to the worker was for the worker to turn round and sabotage the farmer. There were always lots of wagons, machinery and shovel handles that the workers could break up, and it would only be a short time until the farmer would realize the necessity of paying a decent wage in order to protect his personal belongings. Those of the unemployed ranks who were going out on the farm should get together and run an organized sabotage on the farmers, and make them spend more money on tools and implements if they would not spend it on their farm hands."

In Alberta an attempt of the L.W.W. to organize farm-workers' branches was killed through newspaper publicity, resulting in the farmers themselves being made fully aware of the designs against them, and leading to the taking of necessary precautions and concerted action.

Harvest and threshing time in Western Canada always forces the neces sity of bringing tens of thousands of men from Eastern Canada and British Columbia for temporary employment in the harvest fields. Included in this temporary army there is always a large number of that class who are in a chronic state of unemployment, men who drift from place to place. There is also a percentage of young fellows "out for a lark" and ready for any kind of devilment. Mingled among them are professional agitators whose business in life is the stirring up of unrest, disaffection and trouble. They require to be watched and their presence promptly reported to the authorities.

The vast majority of harvest excursionists are steady, reliable men, willing and anxious to work and give an honest return in labor for their wage. Hundreds of them come to spy out the land with a view to permanent settlement here. Hundreds of others are farmers' sons who, having completed their own farm work, are keen to see more of Canada, gain new experiences, and earn money which they cannot do by remaining at home. It must be recognized that such men, after paying their fare from the East-low though such fare may be-faced with only a few weeks employment and the cost of the return journey, are entitled to receive fairly good wages, good food, and decent living quarters and treatment. And the farmer who so treats his workers is advancing his own best interests and those of the West at large.

But the man who has no real desire to work, who "soldiera" on his job. This will appear in the autumn, and who finds fault, grumbles and complains all the time, in a word, whose main occupation is to agitate, should receive short shrift. He earns little or nothing, and usually gets more than he does earn. It is this type which later drifts into our Western cities and towns "broke," unable to get back to the place from which he came, and constitutes a burden and source of expense and trouble to these urban communities throughout the ensuing winter months when there is lack of employment of all kinds.

Business men and communities generally should unite with the farmers. in protecting themselves against this latter class and every possible action taken within the law to eliminate the agitators and keep them in bounds and not allow them to play ducks and drakes with the interests, not only of the farmers at their busiest time, but also with the main body of farm workers and harvesters who are anxious to get on with their work

Won First Victoria Cross

Charles David Lucas Was Decorated By Queen Victoria

Included in the estate of Mrs. Frances Russell Lucas, is a priceless relic, the first Victoria Cross ever awarded. Mrs. Lucas was the widow of Admiral Charles David Lucas, the first man to win the V.C.

This was gained on June 20, 1854, when H.M.S. Hecla was bombarding Bomarsunda fortress, in the Baltic. When the Hecla was within 500 yards of the principal fort, a live shell, with the fuse burning, fell on the deck. Lucas, who was then a midshipman, picked up the shell in an instant and hurled it into the sea. Almost before it reached the water it exploded with a terrific roar. Captain Hall, of the Hecla, immediately promoted Lucas a lieutenant, and three years later Queen Victoria decorated him with the Victoria Cross. Mrs. Lucas was the daughter of Captain Hall, of the Hecla, afterwards Admiral Sir William Hutchison Hall.

NEW STRENGTH FOR WEAK GIRLS

Can Be Had Through the Rich Red Blood Made By Dr. Williams' Pink Pills

There comes a time in the life of almost every girl when weakness at-tacks her. The strain upon her blood supply is too great, and there comes headaches and backaches, loss of appetits, attacks of dizziness heart palpitation, a constant weariness and a tendency to a decline. Al dizziness, these symptoms may not be present in any particular case, but the pres-ence of any one of them shows the necessity for prompt treatment. And the very best treatment is through the blood-making tonic qualities of Dr. Williams' Pink Pills. They are the one thing needed to maintain the growing girls and women

mature years.

Here is a bit of strong proof:—Miss Matilda Brean, King Highway, New-castle, N.B., says:—"I was in an ex-tremely run-down and nervous conditremely run-down and nervous condi-tion. I was losing flesh, had a poor appetite, always pale, and suffered frequently from headaches. In fact my condition can best be described as miserable. I had tried several treat-ments but they did not help me in the least. Then, reading one day about Dr. Williams' Pink Pills, I decided to the choice of the page try them. After using three boxes I was much improved, but continued until I had taken six boxes, with the result that I am now well and strong, with good color and a bearty appe-tite. In view of what Dr. Williams' Pink Pills have done for me I cannot

commend them too highly."
You can get these Pills from any edicine dealer, or by mail at 50 ats a box from The Dr. Williams' medicine cents a box from The Dr. W. Medicine Co., Brockville, Ont.

TRY TO EFFECT A UNION OF ALL WAR VETERANS

Ottawa .-- Four veterans' associations in Canada already have pledged themselves to the establishment of a united organization as a result of a series of conferences held since the arrival of Field Marshal Earl Haig in Ottawa. Representatives of several other national and local bodies have pledged themselves to carry the proposal for a complete union to their memberships and obtain an expression as soon as possible. In a statement, Lieut.-General Sir

Richard Turner, V.C., Dominion president of the G.W.V.A., who has acted es chairman of the conferences, presented a survey of the results to date The statement is in part as follows:

"Organizations that have been pledged to union of all veterans in Canada include the Great War Veterans' Association, the Canadian Legion, the Tuberculosis Veterans' Association, and the Naval Veterans of Torcato. These groups will continue to function as at present until the unity convention can be assembled.

"The calling of this convention probably will be delayed a few months, as other associations, such as the Army and Navy Veterans in Canada, the Imperial Veterans in Canada, the Veterans' Civil Service Guild, the Grand Army of United Veterans, etc., will be holding conventions during the mext two or three months.

Says Japan Has No Desire To Go To War

Chicago.-Trouble between Japan and Russia is inevitable, unless the Soviet Government ceased its tactics of spreading "Red" propaganda, said Count Michimasa Boyshima, member of the Japanesc House of Ppers, who was interviewed here. "Japan has no ambitions, calling for aggressiveness against any nation. Although she is still hurt over the action of the United States in excluding her nationals. Japan has no desire to go to war."

C.W.N.A. Convention

Most Successful Gathering of Weekly Newspaper Men at Winnipeg

Conceded to be the most successful gathering yet held, the Canadian Weekly Newspaper Association assembled at the Royal Alexandra in Winnipeg for their sixth annual convention on June 24, 25 and 26. Some 400 delegates were in attendance from all over Canada. "On the opening day the members were welcomed to the city of Winnipeg by Mayor Webb. The business sessions occupied the better part of three days, and the addresses and discussions were found to be most helpful.

On the second day, at the conclusion of the business session, a visit was made to the Parliament Buildings and to the Manitoba Agricultural College, where the delegates were the guests at a dinner given by the Manitoba Government, Premier Bracken presided and gave an excellent address. Fr-mier Dunning of Saskatchewan also delivered an inspiring address, outlining his views of the work the association is doing in helping to build up Canada as a nation, and his ideals of what Canadian citizenship should be.

Election of officers resulted as follows: President, L. J. Ball, Vernon, B.C.; first vice-president, J. A. Mac-Laren, Barrie, Ont.; second vice-president, S. N. Wynne, Yorkton, Sask.; and directors: British Columbia, Hugh Savage and Ben Hughes; Alberta, J. McKenzie and L. D. Nesbitt; Saskatchewan, J. McDonald, S. J. Dornan and D. C. Dunbar; Manitoba, J. L. Ottawa. - Experimental shipments Cowie and M. S. Watson; Ontario, F. committee: R. C. Fahrni, Gladstone Sir Henry explained that since the Age! chairman of membership com-

United Public Opinion

Canadians Can Alter the Whole National Situation Says Byng

Victoria, B.C .-- If Canadians would meet on common ground to compose their differences they could alter the whole national situation declared Lord Byng, governor-general of Canada, who is making a tour of the western provinces, during the course of an address before the Canadian Club here. *

"If there was a united public opinion," stated Lord Byng, "something would happen. If the east and west could get together in a nice way, if the French and English people could talk differences over in friendly fashion, they could produce a harmony that might be fraught with great probabilities. A united public opinion might take us a long, long way toward freedom from our differences from a sectional point of view."

Editor and Proprietor of The Des patch, Alameda, Sask., and Secretary of the Saskatchewan Division of the C.W.N.A. Mr. Dornan took an active part in the proceedings of the annual convention held in Winnipeg the last week in June.

Wheat Pool Crop Year For 1924 Ends July 15

Regina. - The Saskatchewan Wheat Pool will close its 1924 crop year July 15, the date set for making the cut-off, it is announced by A. J. McPhail, president. The Alberta and Manitoba pools have set the same date for making their cut off. "Any grain received at the terminals after July 15 will be treated as though it were part of the 1925 crop," added Mr. McPhail, and an initial payment of one dollar will be made until the initial payment for the 1925 crop has been definitely decided later in the season."

Another Imperial Parley Suggested

But British Premier Doubtful As To Its Usefulness Just Now

London .- A. C. H. Dixey, member of the House of Commons, has suggest-Bonecour, French chief delegate to ed, in view of the danger to the Empire owing to the state of trade in Britain, that representatives of Dominions should be called together to formulate Empire schemes to develop the resources of the dominions and finding work for the unemployed.

Premier Baldwin replied that the government was engaged in furthering, to the best of their ability, interimperial co-operation and development of the empire's resources on lines agreed upon at the imperial economic conference of 1923.

He doubted whether, at this stage, the summoning of another imperial conference would materially advance made until heart disease, now more the objects which all were equally deadly than cancer, tuberculosis and concerned to promote.

The Oldest Newspaper

Claims Halifax Chronicle Is Canada's First Newspaper

first newspaper, the Halifax Morning world, both of whom devoted their Chronicle, in its 1925 tourist edition lectures to discussions of the heart.

"At 172 Grafton Street stands the building in which was printed Canada's pioneer newspaper, 'The Halifax Gazette'-today 'The Nova Scotia Royal Gazette'-the oldest paper being published in North America. The paper has been published continuously for 173 years and is now the official publication of the Nova Scotta Government.'

Canada's Sea Harvest Increases

Ottawa.--Canada's sea harvest increases in value. In May, 1925, 87,-264,600 pounds of sea fish were landcounter with the villain the latter ed on both coasts and the value of the catch, \$2,832,165, is nearly a million dollars higher than in May, 1924. On the Pacific coast, 1,884,300 pounds of salmon were taken, compared with

Cloudburst In California

Bakersfield, Calif.-A cloudburst in all in the game and takes the slight the Ridge Route, delayed all traffic

EMIGRATION THE ONLY CURE FOR BRITAIN'S ILLS

London.-Dr. Winnington Ingram, Bishop of London, speaking at the Church House, Westminster, on the subject of Anglican Church aid for British Columbia, said he had been in Canada twice, and each time had returned with a feeling that Canada was going to be one of the greatest nations in the world.

Bishop Ingram said he believed that emigration was now the only cure for Britain's ills at home. . He had read with amazement, he said, the premier's remarks about the numbers emigrating having decreased from 200,000 to 130,000 a year. If this was so, it seemed perfectly calamitous. doubtedly, unemployment in Britain was largely due to the slowing down in emigration. The real solution of Britain's difficulties was to send to countries like Canada, Britain's very best-not the unfit-to build up that great country.

Canada's London Home

Office at Hub of British World Says Manchester Guardian

London.-The London papers, as was to be expected, have extended cordial editorial comments on the formal opening of the new Canadian Building here by the King, and papers published outside of London bave been equally cordial in their remarks about the event.

The London Daily Telegraph says: "The Dominion of Canada at last has secured a home in London worthy of its past, present and future. The re-modelling of the building for its use has improved the amenities of Trafalgar Square, for which the people of London and, indeed, the whole Empire, owe a debt of gratitude to the Canadian people."

The Manchester Guardian, noting the tendency of the dominious to plant their offices as near as possible to the heart of London, says Canada certainly has secured a home the closest of all to the heart of the metropolis; her admirable building is right in the hub of the British world, where everyone who comes to London will see it, for it is as inescapable as Nelson's monument.'

Heart Disease More Deadly Than Cancer

Terrific Pace Imposed By Rapid Way

Of Modern Living Portland, Ore.-Great strides in medical efforts to lengthen the average span of human life cannot be plague, is controlled, physicians here, attending the opening of the 1925 session of the Pacific Northwest Medical

Association, declared. The human heart must physically be a heart of steel to withstand the terrific pace imposed by the rapid Halifax, N.S.-Claiming for Halifax pace of modern living, declared two the distinction of having Canada's of the leading medical men of the

Grain Growers Disapprove

Regina, Sask.-Disapproval of the action of certain western Canadians in parliament in supporting a clause in the revised Canada Grain Act taking away from the farmers the right of determining where their grain should be stored until it is sold, was expressed in a resolution unanimously passed by the executive of the Saskatchewan Grain Growers' Association in session here.

Will Investigate Fires

Montreal.-Every fire occurring in Canada will be subject to investigation, following the decision of the Canadian Fire Underwriters' Association, at a meeting at Murray Bay, to extend the activities of its inquiry department to cover the entire Do-

A WARNING

A warning is being given by the town of Didsbury, in this week's issue, against members of the younger generation riding bicycles upon the sidewalk. During the past few weeks many complaints have been made by residents against the practice, and as in one or two cases a collision has occurred between the rider and pedestrian, much to the latter's discomfort if not injury, it is deemed time to put a stop to it. Parents can do much in helping to enforce the order-

THAT GRAIN MONOPOLY

Until the permit system in the shipment of grain to Vancouver is definitely abolished, this Port will never be able to render maximum service to the farmers of the West.

There is no reason in the world why a few grain firms should have a monopoly on shipping grain through the Port of Vancouver. It is iniquitous and can have no other effect than to work against the farmer and against this Port.

A farmer walks into a country station with the idea of shipping a car of grain to Vancouver in order to secure the premium on the Vancouver route. He is told that he cannot ship the car unless he has a permit show ing he has ocean space booked at this Port.

A representative of one of the grain firms will then slip up to the farmer and tell him that he has ocean space booked at Vancouver and will handle his car for him. But while the actua' difference between Vancouver price and Fort William price may be sever or eight cents, the representative wil' only give the farmer two or three cents over the Fort William price.

This is just like ticket scalping with the ticket office sitting in or the game.

The Port of Vancouver cannot afford to sit in on any game that will cheat the Western farmer out of the saving he might effect by shipping his grain via Vancouver.

If the Western grain grower is to get a square deal, if Vancouver is to be an open port, the permit system must be abolished.—Vancouver Sun.

Mountain View

The annual picnic held at Community Hall, July 1st, was as usual a great success. The ball games were much appreciated by the crowd, and the children's races were satisfactorily carried out. The dance in the evening was well attended and everyone seemed to enjoy themselves.

Mrs. Geo. Burns' brother and wife have arrived by motor from Novs Scotia.

Mr. and Mrs. Earl Jackson family are visiting in Calgary. Mr. Bazil Atkinson is also visiting

in Calgary. A new house is being erected by one of our popular bachelor neigh

bors. Miss May Foster and Miss Alice Pearson of Mountain View W.I. and Miss Dorothy Sipperly of Lone Pine W.I. are attending the Girls' Club Convention at Banff, July 2rd, 3rd

4th, 5th and 6th. The W.I. meeting held at Mrs. Ed Blaine's was well attended. All ladies answered roll call by dropping a question in the question box. A

lovely lunch was served. Mr. and Mrs. Kenneth G. Crowe are visiting for a few weeks with the former's sister, Mrs. G. A. Burns having made the entire trip from Truro, N.S., via the Ford car route in nearly record time, just 21 days, covering 4,000 miles and stopping three days en route. They report a splendid trip and plan to return to their home in the fall changing their route a little and traveling a little farther south through the U. S. A.

There will be no Sunday School or preaching service at Community Hall for the balance of July. Services will commence again the first Sunday in stock department at the same exposi-August and continue every Sunday tion, Alberta exhibitors were also through the fall months.

The W.C.T.U. meeting at Mrs. Eckel's on Wednesday last was well ttended, about 27 being present. The August meeting will be held at Mrs. Peter Liesemer's.

Is it because of the Shining new roadster or because of the occupant of the other seat that makes Rash's

mile so sweet these days?

Burnside U.F.A. annual picnic on Tuesday was one of the events of the season. The day was ideal, warm and sunskiny, the new grounds were plendid, the baseball diamond O.K. and the eats delicious. Add to this big crowd, lots of ball games and ports and you have nothing left to wish for.

An open air service will be held on the site of the new Jutland-Burnside Community Half on Sunday, July 12, it 3.30 p.m. This will be a real ballplayers' service and the members of he team are invited en masse. The ervice will be taken by James E. McNeill, B.A., whose subject will be, 'The Home-run Hit in Life." pecial orchestra will be in attend-

Rugby.

A meeting was held in Rugby School Tuesday Eveinng June 30th, when Mr. Claypool gave a splendid ddress on live stock and poultry pools, Mr. N. Clark also spoke on the dairy pool. It is to be regretted that the attendance was not larger, wake up folks! and take a little interest in what's going on.

The weatherman gave us lovely day for our pinic on July 1st. There was a big crowd and everyone seemed to be enjoying themselves. After the other sports were finished, a ball game was played between Westerdale and Westcott, the former gaining the victory. We noticed the members of the committee of the three pools were very busy signing up contracts during the afternoon. Their energy promises well for the success of the drive in this district.

LABOR BUREAU GIVING SERVICE

Indications of the improved conditions on the farms of Alberta are seen 'n the figures of placements on the 'arms made by the Provincial Labor Sureau during the first six months of this year, compared with the same period of the two previous years. The total placements for the half-year in 1925 have been 18,168, and of these 52.5 per cent. or 9,549 were placenents on farms. This is compared with only 44.3 per cent. in 1924 and 32.6 per cent. in 1923. There has been a big increase in the six months of this year being 843 compared with 471 for six months of 1924, and 384 in 1923. This is a distinct indication of better conditions among the farmers.

NEW HOMESTEADS TAKEN

During the month of June a total of 111 homesteads were taken at the federal land office at Edmonton, which is the best month's business since July 1923.

ALBERTA EXHIBITORS WIN Alberta dairy exhibitors at the Brandon Exposition just closed captured 31 of the prizes offered in the various dairy classes. In the live-

heavy winners.

Sixth Crop Report.

Issued by Department of Agriculture, Government of Alberta, Edmonton, July 4, 1925

Warm weather accompanied by hot dry winds during the past week has made a distinct change in the crop situation over most of the province. The grain is still showing a healthy, vigorous growth but the stage has been reached where more rain will be needed within another week if actual damage and lessening of ultimate yield is not to be the result.

In a number of districts in the southern part of the province the hot weather and winds have already had a damaging effect on the wheat now headed out, the heads showing a shrunken condition that will mean a 25 per cent. decrease in the yield. In these districts the most that can be hoped for now is that the uncamaged portions of the heads will fill.

Generally speaking the situation continues to be satisfactory. The wheat is rapidly coming into the shot blade, and in some districts in the south the early wheat is already heading out. Fall rye is well advanced, and the first cutting of alfalfa is under way. Range conditions continue excellent, and the prospects are at present for plenty of feed. There is ample labor for present needs.

It becomes more apparent as the season advances that the first estimates of wheat acreage will suffer considerable revision when the final figures are available. The indications now are that there will be practically no increase in the general wheat acreage over the province, the addition to acreage in some districts being more than offset by the very large area withdrawn from wheat production in the south-eastern districts as a result of the removal of many farmers to other parts. These farmers for the most part have taken up farms already cultivated so that they will bring practically no new wheat acreage into calculation. The department of agriculture has moved a total of 900 families in the past two years, and it is estimated that twice as many more have moved of their own vola-

There is also to be considered the fact that a good deal of the area in the eastern central districts affected by worms has been re-seeded to other crops and withdrawn from the general wheat acreage.

No estimate of wheat yields is as yet being attempted, but the situation is being surveyed with the view of making as estimate shortly. Some districts expect record yields, while others which have suffered from wireworms and cutworms, and from the damaging effect of the hot, dry weather, will have considerably lowered yields.

Damage from hail has not been extensive as yet.

Fire at Innisfail-

Fire, originating in the kitchen, partially destroyed the Alberta hotel, at Innisfail, early Monday morning. The flames were discovered about 3.20 a.m. and in ten minutes they were licking the roof at the rear of the building. Prompt action by the town fire brigade, which had the chemical engine with two lines of hose playing on the blaze in a few minutes, confined the damage to the rear of the

J. F. Peterson is the proprietor and only a few guests were registered on Sunday night, the owner, was in Cal-gary Sunday night, and Mrs. Peterson was awakened by the smell of smoke and turned in the alarm. The damage is practically covered by in-

TAR SANDS SHIPPED EAST Thirteen carloads of tar sands from the Draper leases at Waterways were shipped east during the months of May and June, for the puprose of experimental road building at various points in the Dominion.

exhibition.

FORD TROUBLES and HOW TO AVOID THEM

++++++++++

Most of the engine troubles you ave are the result of neglecting to take a few simple precautions. Few owners give their cars the regular care they should receive. About an hour a week is all the time it takes to give a car the attention it needs, and will save you many hours delay on the road and dollars in repair bills. Lubrication

This is perhaps the most important thing that needs to be attended to regularly. Use the correct grade imperial Polarine Motor Oils designed for the Ford car. The oil in a Ford lubricates the clutch and transmission as well as the cylinders and bearings. If it is too heavy, it causes the clutch to stick and makes the engine very hard to start. If on the other hand the oil is too thin, it has not sufficient body to lubricate the cylinders and bearings properly.

Once every 600-800 miles drain off all the old oil. This is best done just mother up to the time of her death. after coming in from a run when the plug and allow the old oil to drain off, then replace the plug. Now pour into the crankcase some Imperial Flushing Oil, then after turning OFF the Ignition Switch, turn the engine over a few times with the hand crank, or about a minute with the Starter. This will swill the mixture all around the inside of the engine and wash down the grit and dirt. Now remove the drain plug and after blocking the ear wheels securely, jack up the front axle as high as possible to drain thoroughly. Then replace plug and fill up with a fresh supply of oil. Before you start the engine, turn it over smartly twenty or thirty times to get the fresh oil worked into the cylinder walls and bearings.

Gasoline System

Once a month drain off about half pint of gasoline from the Sediment Bulb at the bottom of the gasoline tank, and a little from the drain cock at the bottom of the Carburetor. Water and dirt collect in the Sediment Bulb and unless you draw it off occasionally, it is liable to cause trouble. In winter time, the water may sometimes freeze in the bottom of the bulb or in the Carburetor Float Chamber, and will have to be thawed out with hot cloths. Once or twice a season, disconnect the gasoline pipe at the sediment bulb and screw off the ap at the side of the bulb, then renove the wire screen and see that it s clear.

Megneto Contact

About once a month, remove the Magneto Contact to see that there is no fluff or transmission band ravelings collected round it. Look in the hole out of which you took the Contact and see that it is clean. This fluff collects and causes misfiring and sometimes a complete stop. This simple precaution five minutes once a month may save you a lot of trouble.

Spark Plugs

Once every 800 miles remove all Spark Plugs and set the gaps. One of the best ways to clean spark plugs, s to soak them in a mixture of keroene and alcohol all night, then in the morning the carbon on the porcelain can be rubbed off with a piece of rag. NEVER use emery cloth or sand paper to clean the porcelain. It has a highly glazed surface that is easily scratched. When the glaze becomes roughtened, it quickly oils up again. The points of the plug and the metal parts can, of course be cleaned with emery cloth. The gap in the plugs should be 1/32" or the thickness of a WORN dime apart. If the points are set TOO CLOSE, the engine will misfire at LOW SPEEDS or when accelerating from low speeds. If the gap is TOO WIDE, the engine will misfire principally at HIGH SPEEDS.

Valves The valves on a Ford Car are examined in just the same way as on any other car, the only difference is that the clearance on a Ford must never be less than 1/64" nor more than 1/32".

Battery

Keep the battery terminals clean and tight, and make sure that the battery is wedged firmly in its case and cannot shake about. If the terminals are corroded, clean them with a little ammonia, then smear with vaseline. Once a week in summer and every two weeks in winter take out Everyone prepare for the local the plugs on top of the battery and test each cell with hydrometer.

Squeeze the bulb then insert the nozzle through one of the holes and draw some of the electrolyte into the hydrometer, enough to float the indicator inside. A fully charged cell should read between 1,280 and 1,300. If the reading is below 1,250, have the battery charged at once. After testing, use the hydrometer to fill each cell to within 1/2" above the plates with DISTILLED WATER.

OBITUARY.

On Thursday, June 25th, Mary, daughter of Mrs. W. Collinge of Springside, died suddenly whilst church commences to-day (Thursdence. She had not been enjoying lying east of the track, very prettily Mrs. Finlay of Edmonton. good health for a long time, and situated and of easy access to both frequently was subject to dizzy C.P.R. and stores, has been taken seized with one of these and expired before assistance could reach tents. The Rev. Homuth and his

years of age and had lived with her are now pretty well completed.

The funeral took place on Saturengine is warm. Unscrew the drain day, June 27th, from the residence at one p.m., the interment at the Didsbury cemetery.

Much sympathy has been expressed for Mrs. Collinge in her bereavement, her affection and long devotion to her daughter being well

It will be remembered that Mrs. Collinge suffered a grievous loss a few years ago when her husband was killed in an accident.

BEAUTIFYING A RAILROAD SYSTEM

Strangers, travelling upon the railways in Canada agents and others in work of this kind. This took find pleasure in passing through a country that is new and fresh and possessing a wild, primitive grandeur practically untarnished. But in no small degree this pleasure is heightened and contributed to by a wonderful transformation wrought artificially by the lavish use of trees and flowers which have been planted and cultivated under the supervision of expert horticulturists employed for the purpose by the railway company.

The impression was so striking that the Operating Department of the company proceeded to have

by a wonderful transformation wrought artificially by the lavish use of trees and flowers which have been planted and cultivated under the supervision of expert horticulturists employed for the purpose by the railway company.

The most striking example of what can be effected by this means is to be seen along the Canadian Pacific tracks through the Prairie Provinces, according to an article on the subject in the April "Landscape Architecture" by E. L. Chicanot.

"Along the more than three thousand miles of main line," writes Mr. Chicanot, "there were naturally a good many men, station agents, section forements and others who were garden lovers and who, with the limited means at their command and to the best of their ability, cultivated little pieces of ground about the scenes of their activities. The planting of a little garden at a station, especially in certain bleak, treeless areas, was a conspicuous feature and added some little beauty to the surroundings. This gave to a higher efficial of the company, about thirty-five as series of fair gardens and spots of green sward and cheeffect and make noticeably attractive these stations where the seed had been properly used and cared for.

"The impression was so striking that the Operations Department of the company proceeded to have small out and planted at some of the principal stations and division points along the systems and division points along the systems and division points along the system as specially attactive these cared for.

"The impression was so striking that the Operations and in the company proceeded to have small out and planted out and planted us and subsequently it was decided to engage in the work thoroughly and systematically and to add an expert density of the sample of the company as unsequently it was decided to engage in the work thoroughly and systematically and to add an expert density of the sample of the company as unsequently it was decided to engage in the work of the work as experted to the staff."

treasure plundered from Cartagena, was sweeping forward to snatch the amounting to forty million livres. He rich prize whose defences he had has gone into Port Royal with it. shattered. Whether he defeats me or not, he doesn't come out of Port Royal with it again, and sooner or later that treasure shall find its way into King William's coffers, after, say, one-fifth share shall have been paid to my buceancers. Is that agreed, Lord Willoughby?"

His lordship stood up, and shaking back the cloud of lace from his wrist, held out a delicate white hand.

"Captain Blood, I discover greatness in you," said he.

"Sure it's your lordship has the fine sight to perceive it," laughed the Cap-

CHAPTER XXVII.

The Last Fight of the Arabella

It was the afternoon of that same day, and the two buccaneer ships rocked gently with idly flapping sails under the lee of the long spit of land forming the great natural harbor of Port Roys , and less than a mile from the straits leading into it, which the launched themselves upon the French. fort commanded. It was two hours and more since they had brought up thereabouts, having crept thither un and chuckled. The Victorieuse and observed by the city and by M. de the Medusa appeared to have taken Rivarol's ships, and all the time the no more than a few scars; but the air had been aquiver with the roar of third ship, the Baleine, listing heavily guns from sea and land, announcing to larboard so as to keep the great that battle was joined between the gash in her starboard well above French and the defenders of Port water, was out of account. That long, inactive waiting was straining the nerves of both Lord her gilt beak-head and open ports Willoughby and van der Kuylen. Blood swinging broadside on must have givfaced them, smiling confidently. "It's en check to Rivarol's soaring exultathis way, now: there's nothing at all tion. Yet before he could move to to be gained by precipitancy, and a give an order, before he could well redeal to be gained by delaying, as I solve what order to give, a volcano of shall show you, I hope. Sure, it'll be fire and metal burst upon him from time enough to go forward when the the buccaneers, and his decks were fort has shot its bolt. . . ." He swept by the murderous scythe of the

TO EXPECTANT

How Lydia E. Pinkham's Vegetable Compound Helped Her

Spring Valley, Sask.—"I took the Vegetable Compound before my last confinement, when I got to feeling so badly that I could not sleep nights, my back ached so across my hips, and I could hardly do my work during the day. I never had such an easy confinement and this is my sixth baby. I read about Lydia E. Pinkham's Vegetable Compound in the 'Farmer's Telegram' and wrote you for one of your books. We have no druggist in our town, but I saw your medicine in T. Eaton's catalogue, I am a fariner's wife, so have all kinds of work to do inside and outside the house. My baby is a nice healthy girl, who weighed nine pounds at birth. I am feeling fine after putting in a large garden since baby came. (She is as good as she can be.) Yours is the best medicine for women, and I have told about it and even written to my friends about it."—Mrs. ANNIE E. AYARS, Spring Valley, Sask.
Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system so that it may work in every respect as nature intends. All druggists sell this dependable medicine. Give it a trial.

broke off to listen. "Aye, I was right. The fire's slackening. Ho there

I'd best be looking after Jamalea for decks, the creaking of blocks and the King William." He laughed, with hoisting of sail. The helm was put more mirth than he had used in the over hard, and in a moment they were last two months. "Set a course for moving, the Elizabeth following, ever Port Royal, Jeremy, and make all in obedience to the signals from the We'll be level yet with M. de Arabella, whilst Ogle, the gunner, Rivarol, and wipe off some other score whom he had summoned, was receiving Blood's final instructions before But you are not equal to it, plunging down to his station on the

Within a quarter of an hour they is a match for both yours, my man." had rounded the head and stood in to "in guns-aye," said Blood, and he the harbor mouth, within saker shot smiled. "But there's more than guns of Rivarol's three ships, to which they

by Blood himself,

Blood scanned the French ships,

The sight of that great red ship with broadside. The Arabella held to her course, giving place to the Elizabeth, which, following closely, executed the same manoeuvre. And then, whilst still the Frenchmen were confused. panic-stricken by an attack that took them so utterly by surprise, the Arabella had gone about, and was returnlarboard guns, and loosing her second broadside in the wake of the first. Came yet another broadside from the Elizabeth and then the Arabella's trumpeter sent a call across the water which Hagthorpe perfectly understood. "On, now, Jeremy!" cried Blood.

'Stand by, there! Prepare to board! . . the grapnets!" Brisk-Hayton . ly he explained himself to his two "Boarding is our only chance guests. here. We are too heavily outgunned."

Of this the fullest demonstration followed quickly. The Frenchmen having recovered their wits at last, both ships swung broadside on, and concentrating upon the Arabella as the nearer and heavier and therefore more immediately dangerous of their two opponents, volleyed upon her jointly at almost the same moment. The Arabella rocked and staggered under that terrific hammering. For a moment she seemed to hesitate, then she plunged forward with a gaping hole forward, that was only just above the water-line. Meanwhile, the Frenchmen going about, gave the like reception to the Elizabeth. The Arabella, indifferently served by the wind, pressed forward to come to grips. But before she could accomplish her object, the Victorieuse had loaded her

starboard guns again, and pounded her advancing enemy with a second broad- Rose." side at close quarters. Amid the thunder of cannon, the rending of timbers, and the screams of maimed ton Roy, well-known landscape garmen, the half-wrecked Arabella plung- dener of Montreal. In order that come a world figure. In his haste he ed and reeled into the cloud of smoke that concealed her prey, and then from Hayton went up the cry that she was going down by the head. The blue and gold flank of the Victorieuse loomed through the smoke. But even as across the ocean on a considerable no reply. He may be thinking of com-Blood caught that enheartening scale. Tree Grew From Cane

Cottonwood Stick Was Planted In Kansas Fifty Years Ago One of the largest trees in Hutch-

inson, Kas., has grown from a judge's cane.

Fifty-one years ago, in April, 1874, Judge W. R. Brown, the first judge of this judicial district, was walking along East Sherman Street in Hutchinson twirling a cottonwood stick. Amos Plank, veteran jeweller, who vouches for the story, was working in his yard when Judge Brown came

"Well, I guess I'd better plant you a tree," the judge remarked, and he stuck his cane into the soft ground in front of the Plank home. Plank was called away from home for the summer. When he returned he found the cottonwood stick had sprouted. He left it in the ground. Today it is one of the largest cottonwood trees in Hutchinson,-New York World.

Don't you believe that it's hard to be poor. It's the easiest thing in the

Motor-Cycle Record

Averaged Sixty-eight Miles-An Hour In Race Near Paris

Mrs. Stewart, wife of Lieutenant Colonel R. N. Stewart, established a record for the 250 miles on a 3.46-h.p. motor-cycle at the Linus-Mothery motor racing track, near Paris, accomplishing the distance in 3h. 38m. 22s. The previous record was 3h. 46m

Mrs. Stewart's average speed was over sixty-eight miles an hour,

Mrs. G. M. Stewart is the holder of the double twelve hours record at Brooklands, London, and was once described as a "frait little woman with bobbed hair." She served as an am bulance driver with the Russian army during the war.

One-Lamp Car is Menace

One of the most dangerous things you meet on the road at night is the car with only one head lamp lighted When such a machine approaches it is a good idea to give it lots of room. You can't tell which of this motorist's lights is gone.

Minard's Liniment for Sore Feet

A Quaint Little Bloomer Dress

Frocks for little folks are becoming more interesting every day, and there is almost as great variety as for the grown-ups. What little girl would not adore this quaint and winsome little bloomer frock No. 1025? It may be made of glingham, chambray, percale, cotton rep or the dainty, patterned English prints. The kimono sleeve upper portion is attached to two semi-circular skirt portions, forming an apron effect, and tied at either side with bows of material or ribbon. The pattern also includes bloomers gathered into knee-bands. Elastic is inserted at the waist. The pattern is cut in sizes 4 to 10 years and requires 174 yards of 324nch material for the dress and 1½ yards for the bloomers. the bloomers.

Mr. and Mrs. Vipond left on Wednesday to visit their old home in Ontario, the first time in twentytwo years.

At the meeting of the Mountain View municipal council last week, Councillor Platt handed in his resignation on account of illness.

Miss Ruth Brubacher, who has been teaching in the Inverness school district for the past two years, is spending the vacation with her parents.

Chas. Cook, who has been residing here now for some months, and taking an active part on the local ball team, has accepted a position with Cressman Bros.

Charles Wilson, accompanied by his daughter Nellie, left on Thursday last for Mound City, Miss., his old home town. This will be his first visit in twenty years.

Miss Maud Vernon underwent an operation on June 25th, at the local hospital for appendicitis, and so far recovered as to be able to leave the institution on Tuesday last.

Miss M. A. Towers assumed charge on Monday of the Didsbury General Hospital, in place of Miss Elliott resigned. The latter, who has been here about four and a half years, will return home for a while.

At the Crossfield sports last Friday, W. Burrell of Didsbury, in the 2.25 pace or trot, finished in three heats, won the race by two first and one second. Another of our local residents, Geo. Jenkins, came second with one first and two seconds.

H. Brubacher, who has been assisting in A. G. Studor's store for the past five years, left on Saturday for Edmonton, where he has secured a position with the Swift Canadian Co. His many friends here will wish him every success in

Inland revenue stamps are not required on cheques of \$5 or less, according to information secured from local banks. The new regulation came into effect on July 1st. On cheques over that amount the two cent stamp is still required, as it is also required on grain and milk cheques, etc.

A heavy rain fell here on blonday afternoon and continued more or less throughout the night, the result being that the country has now received sufficient moisture to ensure a good crop. The past three weeks had been rather dry and in some sections the grain was beginning to turn color, the rain therefore being very welcome and encouraging.

The live stock section at the Calgary exhibition this week will include two exhibits from Didsbury, a brood mare and yearling filly with foal at foot sent down by Dan Dippel, and the three prized Shetlands owned by J. V. Berscht. Both shippers are confident of repeating their success of previous years.
